Profile

Product-minded builder with 4+ years at J.P. Morgan serving venture, institutional trading, UHNW, and corporate service clients. Built Python-based tools for high-stakes financial workflows, updated manual workflows into usable systems, and worked across bankers, operations, compliance, and clients to get changes adopted. Targeting technical product, founder-in-residence, or startup generalist roles where financial judgment, technical curiosity, and hands-on building matter.

Experience

J.P. Morgan, San Francisco, CA | Senior Client Associate - AC Group

June 2022 - Present

- Lead client-facing workflow design across institutional trading, onboarding, account maintenance, and corporate services, turning recurring client and operations pain points into documented processes and service standards
- Became specialist for distributions in kind, coordinating multi-party events involving hundreds of transactions and tens to hundreds of millions of dollars in value
- Designed and shipped Python automation and an internal CRM using Flask, pandas, JavaScript, and SQLite, replacing spreadsheet-heavy tracking with automated consolidation, client outreach, document preparation, reporting, and auditable history
- Advise ultra-high-net-worth and venture ecosystem clients from planning through liquidity events, while coordinating bankers, operations, compliance, and external stakeholders

Leadership & Communication

J.P. Morgan, San Francisco, CA | Co-Chair, Client Associate Advisory Council

2023 - Present

- Council member of top-performing Client Associates serving as the structured interface between frontline teams, business leadership, senior management, and the front office
- Co-chair cross-functional forms committee; conceived and built a document prefill tool for a high-demand workflow absent from the firm's roadmap, deployed it across a 1,000-person line of business, and now coordinate integration into core systems
- Run quarterly Pacific Northwest roundtables for 50+ Client Associates across Northwest Region, surfacing field feedback and turning recurring issues into action plans
- Created and run a biweekly AI and Python training series for colleagues, teaching practical automation and AI workflows to a 20+ person cohort

Mock Trial at UC Davis, Davis, CA | Treasurer & Executive Board Member

2017 - 2020

- Elected Treasurer for 3 years; eliminated organizational debt, co-founded an invitational tournament, and helped cultivate 3 nationally ranked teams

Education

University of California, Davis, Davis, CA | B.S. Managerial Economics & B.A. German

September 2016 - June 2020

- Managerial Economics: GPA 3.75, Dean's List 7x, honors thesis on wildfire anticipation and PG&E; coursework in corporate finance, econometrics, derivatives, and quantitative analysis
- German: GPA 3.90, Dean's List 4x; coursework in linguistics, literary analysis, history, and business writing
